2.2. Two Shapes: (<i>a</i>) A Rectangle and (<i>b</i>) A Circle	3

Summary

A brief document to illustrate how to use L^AT_EX.

1. Introduction

1.1. The First Section

This is a simple L^AT_EX document. Here is the first paragraph. The next chapter is Chapter 2 and is on page 3. The next section is Section 1.2.

Exercise (An Example)

Here's an example exercise.

1.2. The Next Section

Here is the second paragraph¹. As you can see it's a rather short paragraph, but not as short as the previous one. This document was created on: Monday 3rd September, 2012 at 19:01.

¹with a footnote

2. Another Chapter

Here's another very interesting chapter. See Chapter 1 for an introduction. Our picture has turned into Figure 2.1.

Figure 2.1.: Some shapes

(a) Rectangle

(b) Circle

Figure 2.2.: Two Shapes: (a) A Rectangle and (b) A Circle

Figure 2.2 shows some more shapes. Figure 2.2a is a rectangle and Figure 2.2b shows a circle.

Exercise (Another Example)

Here's another example exercise.

3. Recommended Reading

For a basic introduction to \LaTeX see Lamport [2]. For more detailed information about \LaTeX and associated applications, consult Kopka and Daly [3] or Goossens *et al* [1].

Acknowledgements

I would like to acknowledge all those very helpful people who have assisted me in my work.

A. Tables

Our tabular environment has now turned into Table A.1.

Table A.1.: A Sample Table

	Expenditure	
	Year1	Year2
Travel	100,000	110,000
Equipment	50,000	60,000
